ABOUT ME

A passionate Full Stack Developer skilled in React, Node.js, and MongoDB, with experience in building responsive web applications. Strong interest in coding challenges and problem-solving. Solved 400+ questions on LeetCode and other coding platforms, and achieved many badges on [LeetCode](#). Looking for opportunities to work on real projects and improve skills in a professional environment.

- SANT LONGOWAL INSTITUTE OF ENGINEERING AND TECHNOLOGY, PUNJAB** 2024-2028
BE in computer science
- GOVT SR SEC SCHOOL, JAIPUR** 2023
PCM

SKILL

- Java
- HTML
- CSS
- JavaScript
- NodeJS
- ReactJS
- REST API Development
- MongoDB
- Socket.IO
- Communication
- Git & Github
- Data Structure & Algorithm

PROJECTS

TripNest – Travel Stay Booking Platform

[LINK](#)

- TripNest is a full-stack travel and booking platform built using Node.js, Express.js, MongoDB, EJS, and Bootstrap. It allows users to view detailed property listings, and make bookings. The application features secure user authentication, optimized image handling via Cloudinary, and a responsive interface for seamless use across devices. It is deployed on Render with MongoDB Atlas as the cloud database.
- HTML | CSS | JavaScript | NodeJS | ExpressJs | MongoDB | Bootstrap

CircleTalk – Real-Time Chat Application

[LINK](#)

Developed a real-time messaging web application that enables users to communicate instantly using WebSocket-based communication. Implemented features such as user authentication, one-to-one chat, real-time message delivery, and online/offline user status.

- React.js | Node.js | Express.js | Socket.io | MongoDB

CORE SUBJECTS

- Data Structure and Algorithm
- Database Management System
- Operating System
- Communication Skills
